In addition to the normal risks associated with equity investing, narrowly focused investments and investments in smaller and mid-size companies typically present a greater risk of loss than investments in large companies, due to greater volatility and less liquidity. Investments in value companies can continue to be undervalued for long periods of time and be more volatile than the stock market in general. Investments in growth companies can be more sensitive to the company's earnings and more volatile than the stock market in general. Bond funds are subject to interest rate risk, including the possibility that the fund's yield will decline due to falling interest rates and that bond prices will fall as interest rates rise. International investments are subject to special risks not ordinarily associated with domestic investments, including currency fluctuations, economic and political change, and differing accounting standards that may adversely affect portfolio securities. These risks may be heightened in emerging markets. Some Funds may invest a portion of their assets in derivatives. Derivative instruments include options, futures and options on futures. The use of derivatives involves risks different from the risks associated with investing directly in the underlying assets. A small investment in derivatives could have a potentially large impact on the Fund's performance.

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown here. Performance data current to the most recent month end is available at 800-622-FUND (3863) or pncfunds.com. Return periods greater than one year reflect annualized performance.

You should consider the investment objectives, risks, charges and expenses of PNC Funds carefully before investing. A prospectus or summary prospectus with this and other information may be obtained by calling 800-622-FUND (3863), or at pncfunds.com. Please read it carefully before investing.
