¹ Net operating expenses reflect contractual waivers and expense reimbursements that continue through the end of September 2018. For more information on fee waivers or expense reimbursements please see the expense table in the prospectus. If the waivers or reimbursements were not in effect the Fund's performance would have been lower.

² The Russell 1000 Value Index, an unmanaged index of the 1,000 largest U.S. companies with lower price-to-book ratios and lower forecasted growth values, is not available for direct investment. Unlike a mutual fund, the performance of an index assumes no taxes, transaction costs, management fees, or other expenses.

Past performance is no guarantee of future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. POP (Public Offering Price) figures reflect maximum sales charge in class A shares of 5.50%. NAV (Net Asset Value) returns do not include the effect of any applicable sales charges. Current performance may be lower or higher than that shown here. Performance data current to the most recent month-end is available at 800-622-FUND (3863) or pncfunds.com.

⁹ Sector Weightings and Top Ten Holdings are a percent of total net assets, calculated based on Fund net assets, and are subject to change. As such, they are for illustrative purposes only as they are not a permanent reflection of Fund composition.

CALENDAR YEAR TOTAL NAV RETURNS

³ Number of Securities includes futures, forwards, ETFs, and other cash-like securities.

⁴ Measure of the price paid for a share relative to the income or profit earned by the firm per share.

⁵ Statistical measure of volatility, calculating the average deviation of a return series from its mean.

⁶ Measure of risk-adjusted performance, considering the risk due to the specific security.

⁷ Quantitative measure of the volatility of a fund relative to the Russell 1000 Value Index².

⁸ Risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk.

PFIZER INC	1.63%
AMGEN INC	1.62%
DELTA AIR LINES INC	1.62%

INVESTMENT STRATEGY

PNC Multi-Factor Large Cap Value Fund seeks long-term capital appreciation by investing in a diversified portfolio of value-oriented, domestic large-company stocks with market caps matching the benchmark.¹⁰ The Fund's managers employ a disciplined, rules-based, linear process focused on identifying companies that can produce earnings in excess of market expectations.

¹⁰ The market cap range of the benchmark frequently changes. As a result, the capitalization of companies in which the Fund invests may also change.

INVESTMENT RISKS

Investments in value companies can continue to be undervalued for long periods of time and be more volatile than the stock market in general. To the extent that the Fund focuses its investments in the securities of a particular issuer or companies in a particular country, group of countries, region, market, industry, group of industries, sector or asset class, the Fund's exposure to various risks may be heightened.
