PORTFOLIO CHARACTERISTICS

Number of Securities 129	Effective Duration (Years) ² 1.85	30-day SEC Yield (sub./unsub.) ³ 2.22%/2.19%
Total Fund Net Assets \$166.4M	Weighted Average Life (Years) 1.98	Average Credit Quality ⁴ Aa2

² Measure of a bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change.

³ Yield shown is for I share class only. Other share class yields may differ. The 30-day SEC yield is calculated with a standardized formula mandated by the SEC. The formula is based on maximum offering price per share and includes the effect of any fee waivers. Without waivers, yields would be reduced. The 30-day unsubsidized SEC yield does not reflect waivers in effect. A fund's actual distribution rate will differ from the SEC yield and any income distributions from the fund may be higher or lower than the SEC yield.

⁴ Average of each bond's credit rating, adjusted for its relative weighting in the portfolio.

SECTOR WEIGHTINGS⁵

(Subject to Change)

⁵ Sector Weightings are a percent of total net assets, calculated based on Fund net assets, and are subject to change. As such, they are for illustrative purposes only as they are not a permanent reflection of Fund composition.

MOODY'S BOND RATINGS⁶

(Subject to Change)

Aaa	53.30%	Baa	18.50%
Aa	6.70%	Below Baa	1.10%
A	13.90%	NR*	6.50%

Total **100%**

Aaa Highest Quality	Baa Medium Grade
Aa High Quality	Below Baa Predominantly speculative, poor quality in increasing degrees
A Upper Medium Grade	NR* Not Rated

* While certain of the Fund's securities may be Not Rated by Moody's, they may be rated by additional NRSRO's.

⁶ A credit rating is a current opinion of the credit-worthiness of an obligor with respect to a financial obligation. It takes into consideration the credit-worthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. Bond ratings are subject to change.

INVESTMENT STRATEGY

PNC Limited Maturity Bond Fund is managed through a team-driven, top-down process utilizing active sector rotation, duration, and yield curve management, with extensive credit research and portfolio analysis to mitigate risk. The Fund seeks to provide current income as well as preservation of capital by investing in investment-grade fixed income securities, including U.S. government, corporate, mortgage-backed, and asset-backed securities. The dollar-weighted average maturity of the Fund is expected to remain between one and five years but may vary in response to market conditions or if deemed appropriate for temporary defense purposes. The Fund's duration (its sensitivity to interest rate changes) is managed to plus/minus 20% maximum relative to its benchmark index, the BofA Merrill Lynch 1-3 Year U.S. Corporate/Government Index.

INVESTMENT RISKS

The value of debt securities may be affected by the ability of issuers to make principal and interest payments and even the possibility that the issuer will default completely. Although U.S. government securities are considered to be among the safest investments, they are not guaranteed against price movements due to changing interest rates. An investment in the Fund is subject to interest-rate risk, which is the possibility that a fund's yield will decline due to falling interest rates and bond fund prices may decline as interest rates rise. The Fund may also be subject to prepayment risk, the risk that the principal of a fixed income security that is held by the Fund may be prepaid prior to maturity, potentially forcing the Fund to reinvest that money at a lower interest rate.

Derivatives Risk. The Fund may invest a portion of its assets in derivatives. Derivative instruments include options, futures, and options on futures. A small investment in derivatives could have a potentially large impact on the Fund's performance. The Fund may be unable to terminate or sell a derivatives position. Derivative counterparties may suffer financial difficulties and may not fulfill their contractual obligations.
