## IMPORTANT STATE TAX INFORMATION

### Income from U.S. government obligations

Income earned from United States government obligations and government agencies is generally exempt from state and local income tax. The chart below breaks out the total income derived from government and agency securities. Please check with your state or local tax office or your tax advisor to determine whether your state or local municipality allows you to exclude some or all of the income you earn from mutual funds that invest in these securities. *If you are eligible for this exclusion, multiply the appropriate income percentage listed in the columns of the chart below by the amount in box 1a of your 2017 Form 1099-DIV to determine the amount of exempt interest.*

## FOREIGN TAX CREDIT

PNC International Equity, PNC International Growth, and PNC Emerging Markets Equity Funds have paid foreign taxes and have passed them through to shareholders. Accordingly, shareholders are entitled to claim a foreign tax credit or take an itemized deduction on their federal income tax returns for their share of the taxes indicated on box 6 of your 2017 Form 1099-DIV. Additional details regarding foreign source income may be found on the PNC Funds website [here](#).

## 2017 CAPITAL GAIN REPORTING

The tax rates that apply to a net capital gain are generally lower than the tax rates that apply to other income. If your fund has any capital gains, it will be reflected on your 2017 1099-DIV in box 2a. Please refer to the Form 1040 instructions or consult your tax advisor to find out if this applies to you.

Long-term capital gains are gains on securities that were held by the fund for more than 12 months and are taxed at only 20% for shareholders whose federal tax bracket is 39.6% or higher, 15% for shareholders whose federal tax bracket is 25% or higher, or 0% for those in a lower tax bracket. Short-term capital gains are gains on securities that were held for one year or less. These gains are taxed as ordinary income (i.e., the same as wages, interest and dividend income) at the taxpayer's appropriate marginal tax rate.

## TAX EXEMPT FUNDS

### IMPORTANT INFORMATION REGARDING YOUR TAX EXEMPT INVESTMENTS

#### Federal Tax Treatment of Exempt-Interest Dividends

Federal tax law allows dividends from mutual funds investing in municipal obligations to be considered tax-exempt dividends. These dividends are paid from tax-exempt 2017 interest earned by the Fund. While the tax-exempt-interest dividends keep their tax-exempt character, they are reported on your Form 1099-DIV (for tax-exempt interest). Under federal information reporting requirements, you generally need to report them on your income tax return, if you are required to file one. Form 1099-DIV box 2a represents taxable capital gains distributions. The amount reported on your 2017 Form 1099-DIV must be included in your tax return.

#### State and Local Tax Treatment

Some federal tax exempt dividends may also be exempt from state and local taxes, depending upon where you file your return. Listed below are the percentages of income by state and by Fund. As state and local tax regulations vary from state to state, not all states permit such exclusions or may require other restrictions. Please consult your tax advisor concerning the application of this information. If the tax law of your state provides for the exemption, multiply the amount in box 10 of Form 1099-DIV by the appropriate percentage below. This amount can be excluded and the remaining balance should be reported on your state return.
